- Provides the body with a smooth, contoured appearance
- Improves appearance of skin firmness
- Improves overall condition of skin
- Helps energize and purify skin
- Hydrates the skin
- Smooth the appearance of cellulite for a firmer, more toned body with *Body Shaping Gel*
- Lock in moisture with *Dermatic Effects*

### **Features:**

- *NEW*: Enhanced ergonomics with larger surface area and comfortable contours
- *NEW*: ageLOC® Galvanic Body Spa conductive surface, exclusive to Nu Skin
- Patented self-adjusting galvanic currents
- Hand-held and portable

### **How it works:**

- Nu Skin's anti-aging science targets youth gene clusters (YGCs) in body which are responsible for, movement of fluid, skin structure, hydration, and lipid metabolism
- By targeting YGCs, ageLOC® Galvanic Body Spa decreases the appearance of cellulite and firms, lifts, smoothes, and slims the body while locking in hydration
- Galvanic spa treatments operate on the simple principle that like charges repel and opposites attract. ageLOC® Body is an at-home use spa instrument that uses the same principle to enhance delivery of charged ingredients to the skin
- A two-step body treatment uses the ageLOC® Body Products. The use of *Body Shaping Gel* penetrates the skin to improve overall appearance while following with *Dermatic Effects* locks in hydration
- Select the optimized treatment setting that is pre-programmed with the correct polarity and time to match the Galvanic Spa product you are using
