## ageLOC® Future Serum

ageLOC® Future Serum combines the most advanced anti-aging science and technology from Nu Skin to preserve the look of youth and reduce the appearance of aging. This powerful, clinically tested anti-aging treatment product reveals younger-looking skin in eight key ways.

### Benefits:

1. **Youthful-looking skin:** promotes youthful-looking skin and a firm appearance
2. **Smooth skin texture:** contains ingredients proven to support youthful skin cell turnover for noticeably smoother and softer skin
3. **Even skin tone:** reduces the appearance of blotchy, dull and uneven skin
4. **Reduced appearance of lines and wrinkles:** a powerful anti-aging blend reduces the appearance of fine lines and wrinkles for more visually youthful skin
5. **Radiant skin:** includes skin brightening technology
6. **Reduced appearance of pore size:** reduces the appearance of pore size through youthful skin cell turnover
7. **Reduced skin discoloration:** skin brightening technology helps reduce the appearance of discoloration
8. **Hydrated skin:** increases hydration by supporting a moisturizing compound found naturally in the skin

### Features:

- Addresses more signs of aging than any other single Nu Skin product
- Gently formulated—powerful ingredients in a mild formula that is neither drying nor irritating to the skin
- Paraben-free

### The Difference. Demonstrated.

Third-party Study Results: Subjects used ageLOC® Future Serum twice daily for 12 weeks and reported they saw the following improvements over baseline:

1. 66 percent improvement in skin structure and lifted appearance
2. 62 percent improvement in skin smoothness
3. 70 percent improvement in skin tone
4. 59 percent improvement in the appearance of fine lines and wrinkles
5. 73 percent improvement in skin radiance and brightness
6. 51 percent improvement in the reduction of pore size
7. 56 percent improvement in the appearance of skin discoloration (spots)
8. 71 percent improvement in skin hydration

**Price:** US\$236, automatic delivery.
