

STEVE WOOD, PH.D.

DIRECTOR OF GLOBAL RESEARCH, PHARMANEX

DEGREES AND AWARDS:

- Ph.D. from the University of Arizona
- Master's degree in human nutrition at Utah State University
- B.S. in chemistry and dietetics at Utah State University

AREAS OF EXPERTISE:

- Antioxidants
- Immunology
- Dietary supplements
- Critical care nutrition

MEDIA CONTACTS:

- Kara Schneck
Phone: 801-345-2116
email: kschneck@nuskin.com

Steven M. Wood, Ph.D., R.D. has a broad and in-depth knowledge of nutrition and research. He received his doctorate from the University of Arizona where he studied the benefits of nutrients and their influence on immune function. He attended Utah State University where he received his dietetic training and master's degree in human nutrition. He has been a registered dietitian since 1987 and is a member of the American Dietetic Association. Dr. Wood is also an adjunct professor at the University of Utah.

Dr. Wood has collaborated with many scientists around the world in the area of nutrition and as it relates to oxidative stress, critical care medicine, infant development, skin, respiratory diseases, geriatrics, and immune deficiencies. He has authored 22 papers in peer-reviewed journals like *Journal of Immunology*, *Journal of Nutrition*, *Journal of the American Geriatric Society*, *Nutrition Research*, *Military Medicine*, and *Respiratory Care Clinics of North America*. He has authored eight book chapters and authored several patents.

Dr. Wood has presented his research at local, national, and international scientific meetings like Experimental Biology, National Academy of Sciences, Philippine Society of Parenteral and Enteral Nutrition, International Congress of Parenteral and Enteral Nutrition Society of Asia, Chinese Society of Parenteral and Enteral Nutrition in Taiwan, World Congress of the International Society for Adaptive Medicine, United States Army Institute of Environmental Medicine, Wildland Firefighters Association, and Defense and Civil Institute of Environmental Medicine of Canada. Lastly, Dr. Wood has served on several scientific panels to review grants for USDA, peer-review papers, and assist in education materials for the Federacion Latinoamericana de Nutricion Parenteral Y Enteral (FELANPE).
