

NU SKIN FORCE FOR GOOD FOUNDATION

CREATING SMILES 2015 YEAR IN REVIEW

THE NU SKIN FORCE FOR GOOD FOUNDATION improves the lives of children around the world by offering hope for a life free from disease, illiteracy and poverty.

“I am continually touched by our many Nu Skin Force for Good Foundation donors who demonstrate their compassion and generosity. In 2015, the contributions of our donors provided many of the world’s most needy children with food, healthcare and education and, most of all, hope for a brighter future. By continuing to work hand in hand with our donors, we can continue to overcome adversity and triumph over disease, illiteracy and poverty to create smiles that will never fade.”

—STEVEN J. LUND, *Chairman of the Board*

CREATING SMILES THROUGH EDUCATION

EDUCATE THE CHILDREN (ETC): MALAWI

After primary school, students in Malawi are required to pay for secondary education. Many families cannot afford school fees, and as a result, according to UNICEF's 2013 annual country report on Malawi, approximately 68 percent of students drop out of school. The Educate the Children (ETC) scholarship fund, which is fully funded by the Nu Skin Force for Good Foundation, provides educational opportunities for these children. In 2015, the Foundation provided tuition, uniforms and books to 176 students — 125 secondary students and 51 college students. Since ETC's inception in 2007, Foundation contributions have helped more than 750 students, and more than 80 of those students have gone on to earn college degrees in a variety of professional fields.

750+ scholarships since 2007

SEE HOW ETC IS CREATING SMILES IN MALAWI

SEACOLOGY

The Foundation continues to support Seacology and its efforts to reinforce children's education in island communities. In 2015, Foundation funds helped Seacology finance the building of a community center for women and children in Nanuca Village in Vanua Levu, Fiji. In Ovaka Island, Tonga, Seacology used Foundation funds to refurbish an existing community hall and its facilities including a bathroom, water tank, gutters and furnishings. In Berhampur, Chilika Lake, India, construction started on a solar-powered, multipurpose community center. These community centers enable residents to hold trainings and community-related events that help to provide multifaceted education and vital information for those living in the area.

4,400+ children benefited

NU SKIN CHILDREN'S HOPE : JAPAN

After the devastating earthquake and tsunami in March of 2011, Nu Skin Japan established the Nu Skin Children's Hope project to provide educational scholarships to children affected by the disaster. In 2015, three children living in Sendai, Miyagi, received scholarships. Since 2011, 48 children have received scholarships.

48 scholarships since 2011

NU SKIN SMILE LIBRARY: JAPAN

In 2015, the Nu Skin Smile Library project donated more than 3,200 books, 19 bookshelves and 3,500 sets of stationary items to 17 elementary schools in Kesenuma, Miyagi. To date, more than 13,000 students have benefited from these libraries.

13,000+ students benefited since 2011

NU SKIN HOPE LIBRARY: KOREA

The Nu Skin Hope Library project provides elementary children in Korea with new libraries complete with books, furniture and equipment. In 2015, Nu Skin sales leaders in Korea helped build a Nu Skin Hope Library for elementary school children living in rural Korea. The new library features technology-based learning aids, including projector kits and computers, and will support Nu Skin Korea's efforts to help improve reading environments for children. Since 2008, a total of 16 libraries have been built and stocked to enhance children's education.

16 libraries since 2008

ETC HELPS MALAWIAN FULFILL DREAM TO TEACH OTHERS

Since paying for even secondary education is a hardship for most families in Malawi, it was no surprise that Alter Chilinda thought he would never have the opportunity to earn a college degree. However, thanks to Educate the Children (ETC), his doubts were put to rest. Alter was awarded an ETC scholarship that paid for his tuition and books, which enabled him to pursue his dream of becoming a teacher. On June 6, 2015, he realized this goal — once thought unattainable — when he was awarded his bachelor's degree in education from the African Bible College. Alter has now fulfilled his dream and is a teacher at Katondo CCAP Mission Secondary School.

CREATING SMILES THROUGH HEALTH

EPIDERMOLYSIS BULLOSA (EB)

Since 1996, the Nu Skin Force for Good Foundation has provided consistent grants to the Epidermolysis Bullosa Medical Research Foundation (EBMRF) that funds research at Stanford University School of Medicine's Department of Dermatology. Epidermolysis Bullosa (EB) is a rare, inherited, blistering skin disease that affects all ethnic and racial groups. Included in this funding is the company's commitment to donate 25 cents from each sale of its

Epoch® Glacial Marine Mud product to the Nu Skin Force for Good Foundation, specifically earmarked for EBMRF.

In Korea, sales leaders donated to EB medical research at Yonsei University Gangnam Severance Hospital. Korean sales leaders have donated US\$92,000 to patients and more than US\$150,000 to Gangnam Hospital since 2005.

MEET JONG HYUCK

Jong Hyuck, 11, has suffered from Epidermolysis Bullosa (EB) since birth. His parents thought he would not live beyond his first year of life, but Jong Hyuck had a strong will to live and is defying the odds. However, life is not easy for him. Jong Hyuck is self-conscious about his skin, which makes him uncomfortable when he meets new people. He typically avoids people and prefers to be by himself. His parents recognized his lack of confidence and decided to take Jong Hyuck and his brother to the 13th EB Patients and Family Meeting in Seoul, organized by Nu Skin Korea.

A total of 170 people, including EB patients, their families and Nu Skin Korea employees and sales leaders, attended the event. Jong Hyuck was able to take part in the recreational activities and loved touring the aquarium theme park with his family and other EB children without worrying about his skin condition. A surprise everyone enjoyed was a generous donation made by Nu Skin sales leaders—they donated nearly US\$8,300 to EB patients for treatment. Although it is difficult to live with EB, Jong Hyuck says he is hopeful his disease will be completely cured someday.

SOUTHEAST ASIA CHILDREN'S HEART FUND

The Southeast Asia Children's Heart Fund provides grants for lifesaving corrective heart surgeries for underprivileged children suffering from congenital heart disease. The Heart Fund continues its efforts through generous donations from Nu Skin sales leaders. As of the end of 2015, more than 11,200 sales leaders in Southeast Asia pledged to donate 1 percent of their monthly commissions to the Southeast Asia Children's Heart Fund. In 2015, a total of 832 children received heart surgeries. Since 1999, the Heart Fund has provided grants to help 7,498 children receive these lifesaving operations.

7,498 children saved since 1999

GREATER CHINA CHILDREN'S HEART FUND

According to the 2012 Ministry of Health Report on Birth Defects in China, the prevalence of congenital heart disease ranks first in the rate of birth defects, with approximately 200,000 cases in children reported every year. Many of these children cannot receive timely treatment due to the families' inability to pay for the needed surgeries. In 2015, the Greater China Children's Heart Fund provided more than 1,155 lifesaving surgeries. Thanks to eight years of Heart Fund donations, 4,459 children in Greater China now enjoy happy, healthy and active lives. The Heart Fund also helps with preventative therapies and has provided more than 100,000 heart scans for children to date.

4,459 lifesaving surgeries since 2008

CHARITYVISION: COLOMBIA

The Nu Skin Force for Good Foundation and CharityVision partnered with local optometrists to co-launch a new school screening pilot program for children in Bogota, Colombia. Since the program began in April 2015, more than 10,000 children have been screened for visual health impairments and hundreds of glasses have been distributed through the program.

10,000+ vision screenings

CHILDREN'S HEART FUND

CREATING SMILES THROUGH ECONOMIC OPPORTUNITY

SCHOOL OF AGRICULTURE FOR FAMILY INDEPENDENCE (SAFI): MALAWI

In 2015, 42 Malawian families mastered self-sufficiency through their participation in the School of Agriculture for Family Independence (SAFI). Through this program, families live in Mtalimanja Village each year to learn proper agriculture techniques and to improve the quality of their lives by becoming independent, sustainable farmers. Families return to their own farm for the second year of the program to implement the techniques they have learned and to teach these skills to others in their village. After implementing SAFI techniques, crop yields for the families have increased as much as 700 percent. As of 2015, 228 families have completed the program designed to educate families and ensure that the ideals of self-sufficiency will last for generations to come.

228 self-sufficient families since 2007

CHILDREN'S BRIGHTER FUTURE IN MALAWI

In 2012, Japan decided to help fund the Children's Brighter Future (CBF) initiative in Malawi to build upon the teaching model at the School of Agriculture for Family Independence (SAFI). The initiative provides regional leaders with agricultural training they can take back to the communities they serve. This empowers more people throughout Malawi to learn agricultural skills and expands the SAFI education system across all districts in Malawi. By the end of 2015, more than 616 new farmers completed the course to help create a brighter future for their families and communities. The total number of farmers trained since the program's inception is 1,448.

1,448 trained farmers

CHARLES AND GLADYS JEKETE CREATE BRIGHTER FUTURE FOR DAUGHTER AT SAFI

One-year-old Prisca Jekete has a bright future now that her parents, Charles and Gladys, are enrolled at the School of Agriculture for Family Independence (SAFI). The couple attempted to operate a business selling groceries in community markets, but it didn't last long and compromised the family's food security. To make ends meet, Charles began bricklaying but it only provided for basic necessities.

To better provide for Prisca's future, Charles and Gladys are learning new farming technologies at SAFI, which they believe will improve their agricultural productivity and give them enough income to pay for Prisca's education. The family's goals upon graduating from SAFI include building a house, starting a sustainable agricultural business and sending Prisca to college when she's older.

SEEDS OF HOPE: MALAWI

Fruit trees are changing the lives of vulnerable children by providing nourishment and a source of income. More than 34,000 fruit trees were purchased and planted in 2015 through the Seeds of Hope program. The indigenous trees bearing guava, pawpaw and avocado fruits were distributed to nearly 8,000 households within 161 communities. The program is funded in part through a \$0.25 contribution from the sale of each unit of Epoch Baobab Body Butter.

161 communities received fruit trees

FOOD FOR KIDS: JAPAN

In 2015, Nu Skin Japan's Food for Kids program donated funds each month to Second Harvest Japan to provide food to 7,000 children in 120 foster homes. Since the partnership began in 2006, Nu Skin Japan has donated nearly US\$2.1 million to the food bank.

7,000 foster children fed

NU SKIN GREATER CHINA MICROFINANCE FUND: GREATER CHINA

The Nu Skin Greater China Microfinance Fund was originally set up to give assistance to families affected by the 2008 Sichuan earthquake, and now it provides financial opportunities for families to help them become self-sufficient. The Nu Action program was added to the Microfinance Fund last year to support disabled entrepreneurs. This program has implemented career start-up capital assistance and facilitates initiatives for disabled persons in more than four provinces, with plans to expand to more areas across China. Since 2008, 11,681 families have received microenterprise loans through the Microfinance Fund.

11,681 families funded since inception

PROVIDING HOPE IN THE MIDST OF DISASTER

MALAWI FLOODING AND NEPAL EARTHQUAKE

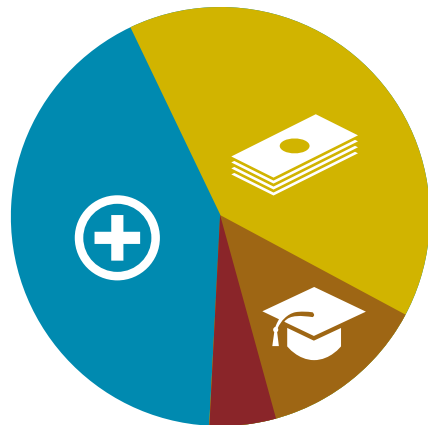

Nu Skin's mission is to be a force for good in the world, particularly in times of disaster. In 2015, the company provided support to Malawi and Nepal by donating funds and supplies to these disaster-ridden countries. Heavy rains in January caused floods that ripped through the country of Malawi, leaving a quarter of a million people displaced from their homes. To help with the immediate needs, the Nu Skin Force for Good Foundation donated US\$10,000 to the Chewa Heritage Foundation to provide relief to flood victims. The funds were used to procure maize and purchase mosquito nets, blankets and items needed to aid in the clean-up efforts.

On April 25, 2015, a massive earthquake hit Nepal that caused an avalanche on Mount Everest that decimated villages across the country and killed thousands. The Nu Skin Force for Good Foundation promptly sent US\$50,000 to the International Red Cross to aid in the immediate relief efforts.

SEE HOW A FAMILY'S LIFE HAS CHANGED THANKS TO SAFI

The Nu Skin Force for Good Foundation and its charitable partners donated more than **\$6 million** in 2015.

NU SKIN FORCE FOR GOOD DAY

CREATING SMILES AROUND THE GLOBE

In 2015, Nu Skin celebrated its 12th annual Force for Good Day. Nu Skin sales leaders and employees around the world provided aid and support for more than 20,000 children by improving health, education and economic opportunities throughout their local communities. Nu Skin's commitment to improve lives and make a positive difference to those less fortunate created a record number of volunteer hours and projects that helped both children and their families.

Following are a few highlights of the ways the Nu Skin family united worldwide to be a force for good by serving those in need:

AMERICAS

CANADA

Nu Skin Canada employees assembled 500 lunches and fed lunch to Toronto's homeless population. The market also provided support and comfort to families suffering from Epidermolysis Bullosa (EB) by hosting its 3rd annual Good Butterfly Day event at the company's Mississauga office.

LATIN AMERICA

In Colombia, Nu Skin partnered with Charity Vision to provide free eye screenings for 3,000 children. The company kicked off the project with a Quiero Ver (I Want to See) event, and eyeglasses were given to children who needed corrective lenses.

UNITED STATES

Nu Skin Enterprises teamed up with Intermountain Healthcare, United Way of Utah County and Downtown Provo. Employees assembled 10,000 kids' care bags, made 200 fleece quilts, donated 3,000 children's books and DVDs, and cleaned 12 city blocks of downtown Provo.

EUROPE, MIDDLE EAST AND AFRICA

BELGIUM

Nu Skin employees planned activities to raise money for the Belgian charity, Moeders voor Moeders (mothers with young children who live in poverty). Proceeds from the events provided the charity with fitted sheets for single and double beds, bath and kitchen towels, various baby items and school supplies.

GERMANY

Nu Skin Germany partnered with the local Frankfurt association, Cancer Aid for Children, to support the association's fund-raising concert. This charity festival is organized by children, youth and young adults who are suffering from cancer. All proceeds from the event help the charity fulfill children's dreams and help to bring joy to children suffering from cancer.

HUNGARY

Nu Skin employees helped renovate a children's sports club

in Budapest and taught the children how to live an active and healthy lifestyle.

RUSSIA

Nu Skin employees provided toys, books, table games and candy for children in a Moscow boarding school. Company employees also cleaned school grounds and beautified the neighborhood.

SOUTH AFRICA

Nu Skin South Africa partnered with the Kids Haven Shelter in Benoni, Gauteng, to educate and rehabilitate children living and working on the streets and to help reintroduce them into society.

GREATER CHINA

MAINLAND CHINA, HONG KONG, AND TAIWAN

Mainland China, Hong Kong and Taiwan sponsored a second-hand clothing drive. The clothes are sold in charity shops, staffed by the disabled, that encourage people to recycle resources.

NORTH ASIA

JAPAN

Nu Skin employees assembled 3,500 Kits for Kids. Larger packages or "Smile Libraries" were donated to 17 elementary schools. Employees also donated books and bookshelves to elementary-aged children.

KOREA

Thirty employees of Nu Skin Korea worked to create a colorful wall painting through the "Painting a Mural" project for the Juk Baek Elementary School, which was the 5th Nu Hope Library. The company also donated 90 books and 200 nutritional products for the elementary students.

SOUTHEAST ASIA AND PACIFIC

INDONESIA

Children living in 10 remote and isolated areas throughout Indonesia were provided with educational boxes filled with books, crayons and educational toys.

MALAYSIA

Nu Skin Malaysia organized a Nature Hunt Day with 12 of its sponsored children from the Southeast Asia Children's Heart Fund. They joined the members of the Heart Fund's board and other sales leaders to enjoy a healthy day with a picnic at the Forest Research Institute Malaysia.

PACIFIC

Nu Skin Pacific employees volunteered their time to provide housekeeping, gardening and general maintenance to the Ronald McDonald House that supports children who are undergoing treatment at the local Westmead Children's Hospital.

PHILIPPINES

A school supply drive titled, "Force for Good Tulong Balik Eskwela 2015," focused on helping children diagnosed with life-threatening congenital heart disease. The event was organized by employees and sales leaders from the Philippines.

SINGAPORE

Nu Skin Singapore employees and sales leaders celebrated the company's 15th anniversary in the country by visiting Trick Eye Museum with 40 chronically ill children from Club Rainbow Singapore.

THAILAND

Employees from Nu Skin Thailand spent the day at a local indoor theme park with children who suffer from congenital heart disease. The children visited KidZania, which provides a realistic educational environment in a makeshift city built to scale for children between the ages of four and 12.

VIETNAM

One hundred children with heart defects at Nhi Dong 1 Pediatric Hospital received a welcome surprise thanks to Nu Skin Vietnam employees who brought the children gifts and focused on brightening their day.

Our **force for good culture** unites the Nu Skin family of sales leaders, customers and employees in innovative efforts that multiply our ability to nourish and uplift children around the world. We accomplish this through the unique combination of **three distinct approaches**:

- The **Nourish the Children** initiative, is a for-profit social enterprise providing millions of lifesaving meals to malnourished children around the world.
- The **Nu Skin Force for Good Foundation**, is a non-profit organization that provides grants to improve the lives of children, offering hope for a life free from disease, illiteracy and poverty.
- **Community-based initiatives** that engage sales leaders and employees in meaningful humanitarian service with tangible and enduring results.

CREATING SMILES

NOURISH THE CHILDREN

CREATING SMILES 2015 YEAR IN REVIEW

NOURISH THE CHILDREN®

AN INITIATIVE OF NU SKIN ENTERPRISES

Nourish the Children (NTC) is an initiative that applies business principles to address the problem of childhood hunger in a sustainable manner. Since 2002, Nu Skin and its sales leaders, customers and employees have donated more than **450 million meals** to malnourished children around the world.

The program begins with VitaMeal, a highly nutritious food developed by Nu Skin's nutritional scientists. The company's sales leaders, customers and employees can purchase VitaMeal and choose to donate the food to a third-party nonprofit organization that specializes in distributing relief to those suffering from malnutrition and famine.

“As the Traditional Authority responsible for more than 3,000 villages, I have seen the benefits of VitaMeal being provided to many homes in my area. I can't begin to describe how it makes me feel to see these young children grab hold of the bags of food and hug them like their most prized possession. It is literally changing their lives for the better and giving them hope for the future.”

—MASUMBA NKHUNDA, *Traditional Authority Malawi*

LEARN MORE ABOUT
NOURISH THE
CHILDREN

*Nu Skin is a for-profit distributor of nutritional and skin care products in 54 markets and is traded on the New York Stock Exchange (NUS). Nourish the Children is an initiative of Nu Skin and is registered in some states as a commercial co-venture. The initiative enables Nu Skin's distributors and customers to purchase VitaMeal from Nu Skin and donate it to charitable organizations to help solve the complex world problem of feeding malnourished children. The price of VitaMeal includes the cost of manufacturing, general overhead, distribution and sales. As is the case with other Nu Skin products, distributors are paid commissions and Nu Skin earns a profit margin from each sale of VitaMeal, which is lower than the profit margin on virtually all of Nu Skin's other products.

VITAMEAL®, AN INNOVATIVE AND SUSTAINABLE SOLUTION

VITAMEAL: MORE THAN JUST A MEAL

Malnourished children are missing key nutrients in their diets, which can hinder brain, bone and immune system development. Most humanitarian food consists mainly of grain, such as corn, which may lack other essential nutrients necessary for healthy development. As part of the overall development of VitaMeal, Nu Skin's nutritional scientists determined the ingredients and ratios that are well suited for a malnourished child. The result is a product that is fortified with essential vitamins and minerals.

The Nourish the Children initiative partners with third-party, non-profit organizations that specialize in distributing millions of pounds of food to those in the greatest need. These partner charities leverage the positive impact of VitaMeal that is purchased and donated. For example, in many countries, VitaMeal is part of school lunch programs that encourage families to send their children to school. VitaMeal is used in many ways to help malnourished children and has become more than just a meal; it brings hope to many young lives around the world.

“World Vision has distributed VitaMeal through childcare centers and the ‘Common Pot’ meal program in Nicaragua to reach as many children in need as possible. VitaMeal is simple to prepare, and the children enjoy eating it combined with local vegetables and herbs.”

—JENNIFER HAWLEY,
Senior Director, Corporate Engagement World Vision International

BO NOURISHED WITH VITAMEAL AT SCHOOL

Eight-year-old Bo Xiaowe is a second grade student at Gejia Primary School. Because of malnutrition from lack of food at home, he was much thinner and shorter than his peers. Fortunately, the provision of VitaMeal at his school during lunch has helped keep him nourished. It has also given him hope he can achieve his goals. “My dream is to be a doctor when I grow up so that I can prevent children from getting sick,” Bo said.

MEET TALIA WHO IS BENEFITING FROM THE DONATIONS OF VITAMEAL.

TOGETHER, WE ARE MAKING A DIFFERENCE

In 2015, the Nourish the Children initiative provided millions of meals to children in great need.

10 million meals distributed in Asia

19 million meals distributed in the Americas

35 million meals distributed in Africa

1 million meals distributed to other countries

“I’ve seen firsthand the difference that VitaMeal has made in my country. Its impact has been life-changing for thousands of kids. Children who were once very hungry are now healthy, strong and are able to go to school. Mothers who had no food can now provide their loved ones with a warm and nutritious meal.”

—MADAM CALLISTA MUTHARIKA, *Former First Lady of Malawi*
